# Route Creator

Build, optimize, and save routes

Significantly reduce administrative time required to plan routes

The screenshot displays the Route Creator application interface, which is divided into two main sections: a map view and a route editor.

**MAP VIEW:** The top section shows a map of San Diego, California, with a blue route connecting five stops. The stops are labeled as follows:

1. Jennings Residence | Jennings Residence
2. Jones Residence | Jones Residence
3. Stuart Residence | Stuart Residence
4. Parker Residence | Parker Residence
5. Smith Residence | Smith Residence

The map includes various geographical features, roads, and landmarks. A "Map Controls" button is visible in the top right corner of the map area.

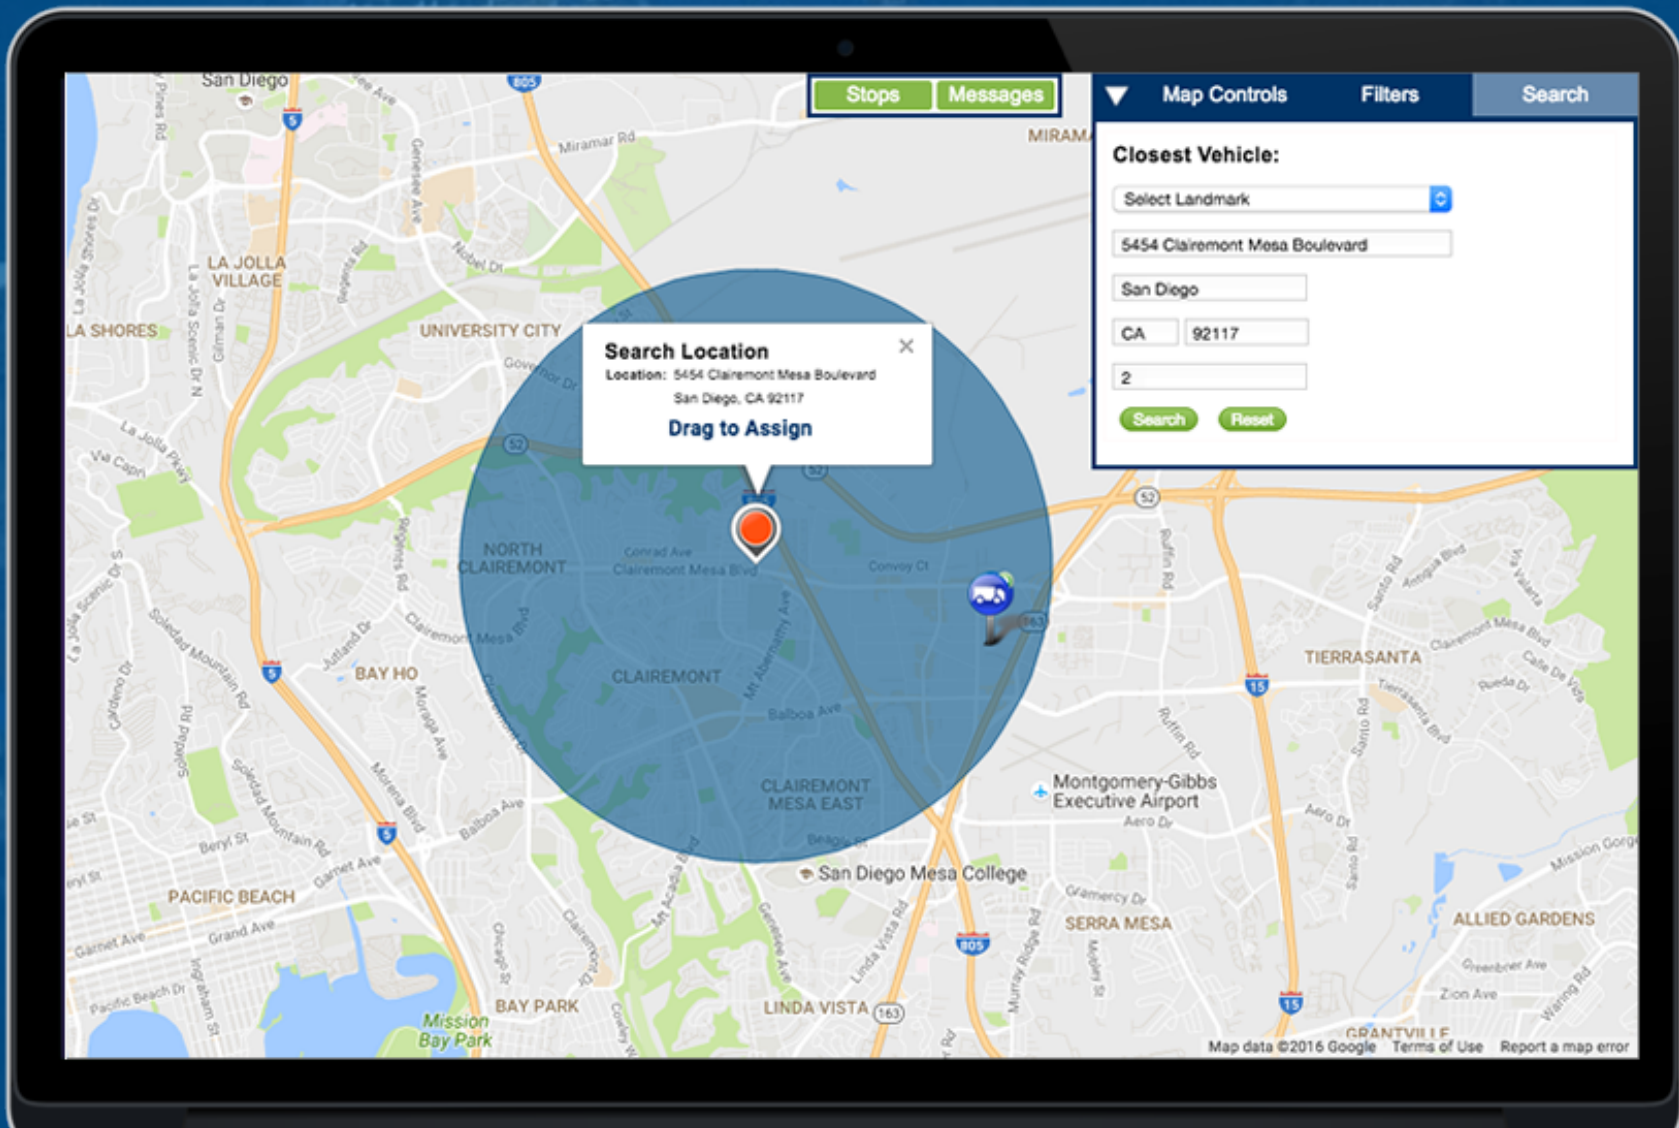

**ROUTE EDITOR:** The bottom section is titled "Route Editor" and contains the following elements:

- ROUTE INFORMATION:** A section for editing the route name, currently set to "San Diego Deliveries".
- ADD STOPS:** A section for adding new stops, including fields for "Landmark (Optional)", "Label (Optional)", "Address", "City", "State", "Zip", and "Description".
- ROUTE PREFERENCES:** A section for adjusting route preferences, including "Show ETA" (checked), "Avoid Highway" (unchecked), and "Avoid Tolls" (unchecked).
- STOP LIST:** A list of the five stops, each with a label, address, and estimated time and distance between stops:
  - 1. Label: Jennings Residence, 3233 La Jolla Village Drive, San Diego, CA 92037. 14 mins, 8.5 mi.
  - 2. Label: Jones Residence, 8105 Clairemont Mesa Boulevard, San Diego, CA 92111. 15 mins, 9.8 mi.
  - 3. Label: Stuart Residence, 10808 Birch Bluff Avenue, San Diego, CA 92131. 13 mins, 5.2 mi.
  - 4. Label: Parker Residence, 13112 Poway Road, Poway, CA 92064. 10 mins, 4.4 mi.
  - 5. Label: Smith Residence, 14300 Stony Gate Place, San Diego, CA 92128.
- Buttons:** "Optimize Stops" and "Save Route" buttons are located at the bottom of the stop list.

# Closest Driver

Quickly assign new stops to drivers via drag & drop

# Route Uploader

Upload jobs via .csv to optimize and assign routes

Quickly import stops from third party systems

# Route Manager

Save routes for future use

Easily reuse existing routes rather than building from scratch each time

The screenshot shows a web application interface for managing routes. At the top, there are tabs for 'Stops' and 'Messages'. Below these are 'Map Controls', 'Filters', and 'Search' options. A 'Closest Vehicle' section is visible on the right, with a 'Select Landmark' dropdown menu, a text input field containing '5454 Claremont Mesa Boulevard', and a location dropdown set to 'San Diego'.

The main content area is titled 'Route Manager' and 'Route Editor'. It features two sections: 'CREATE NEW ROUTE' with a 'Create New Route' button, and 'UPLOAD ROUTES' with an 'Upload Routes' button. Below these is a table listing various routes with columns for 'Route Name', 'Start', 'End', 'Stops', 'Edit Route', and 'Delete Route'.

See status of dispatched jobs in real-time

The screenshot displays a web-based interface for monitoring driver progress. It features a map of San Diego with several driver locations marked by icons and labels like 'demo5' and '4. essman | demo5'. A sidebar on the right lists four jobs with their labels, addresses, and estimated times. Below the map, there are filter options for driver, group, and status, along with a 'Show Active' checkbox. At the bottom, a table provides a detailed view of driver statuses, including labels, current stops, and message counts.
